

The Oneness Awakening Course

An immersion in the teachings and practices that cultivate awakening to Oneness

Facilitated by Oneness Trainers Erin Miller and Tina Anacker Murray

सत् चित् आनन्द्

Developed at Oneness University in India, this course is designed for accelerated spiritual growth. . Each day of the course is filled with practical teachings, inner processes, and contemplation that support awakening into higher states of consciousness and living a joyful life free of internal conflict.

The primary purpose of Oneness is to liberate the mind. Deeksha or Oneness Blessings create a neurobiological shift in the brain that assists the opening of the heart. Your relationship with yourself and others becomes more accepting.

Highlights of the weekend include*:

- Awakening a connection with inner wisdom, your Divine or Higher Sacred Self - your guide to enlightenment.
- Meditations to open, balance, and clear the chakras and the subtle energy body.
- Guided processes and contemplations designed to heal inner emotional charges and relationships - releasing negative patterns of childhood conditioning.
- Initiation as a Blessing Giver empowering you to share the Blessing with others.
